# Rife Frequency List

Compiled by Spooky2Rife.com

Sep.22<sup>nd</sup>,2015

---

Here you can find the biggest rife frequency database in the world. It has 10 sub-databases, including PROV, CAFL, KHZ or BIO, etc. Most people are wondering what these abbreviations mean. Here is a breakdown of what each one is:

PROV has produced consistent results in virtually all subjects it was used with.

BIO and VEGA are both excellent, based on Russian frequency research.

CAFL is the Consolidated Annotated Frequency List, amassed from the experience of Rife experimenters over years.

XTRA is a collection of sets from various sources, all chosen for their reputation for effectiveness.

CUST is your own personal database.

RIFE is a collection of Dr. Royal Raymond Rife's original frequencies.

HC is Dr. Hulda Clark' s database. Use with a square wave, 100% positive Offset, and Amplitude of 9.5.

KHZ is a collection of higher frequencies. Use with a square or inverse sawtooth wave, 100% positive Offset, and Amplitude of 9.5.

ALT consists of sets based on Ayurvedic knowledge and practice, Solfeggios, and planetary frequencies.

Spooky2 not only includes all these rife frequencies. Users can also customize their own frequencies at their wish.

To choose the best frequencies, please check below:

## A

Abdominal Cramps,Stomach,"72,95,190,304," ,XTRA

Abdominal
